SUMMARY

UI/UX Designer with 4+ years of experience designing user-centered, accessible, and scalable digital experiences for web and mobile platforms. Strong background in UX research, interaction design, information architecture, and usability testing. Expert in Figma and design systems, with experience collaborating cross-functionally to deliver intuitive, data-informed product experiences.

SKILLS

Research & Analysis

User-Centered Design, UX Research, Usability Testing, Heuristic Analysis, Empathy Mapping, Personas, User Journeys, Customer Journeys, Surveys, Competitive Analysis, Card Sorting, AB Testing, Moderated and Unmoderated Testing, UX Strategy, Data-Informed Design

UI & Interaction Design

Interaction Design, Wireframing, Rapid Prototyping, High-Fidelity Prototyping, Low-Fidelity Prototyping, Responsive Design, Mobile Design, Web Design, Information Architecture, Visual Hierarchy, Typography, Color Theory, Design Systems, Component Libraries, Micro-interactions

Tools

Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Miro, FigJam, Maze, User Testing, Optimal Workshop, UserZoom, Google Analytics, Framer, Webflow, MS Office, Zeplin, WordPress, Jira, Notion

Technical

HTML, CSS, JavaScript

EXPERIENCE

UI/UX Designer | Mouser Electronics

JAN 2024 - PRESENT

- Designed user-centered workflows, wireframes, and interactive prototypes in Figma, improving internal workflows for 500+ employees.
- Conducted usability testing and feedback sessions with employees, identifying UX pain points that reduced task completion time by 30% and minimized data entry errors.
- Coordinated with developers and project managers to ensure design consistency, accessibility, and adherence to UX best practices across internal applications.
- Built and maintained reusable UI components and design patterns within shared design systems, enabling scalable updates and consistent experiences across employee-facing tools.

- Improved information layout and presentation of complex operational data, helping internal teams make faster and more accurate decisions.
- Optimized workflows for 10+ internal tools by improving information architecture and eliminating redundancies, leading to measurable 20% increase in employee satisfaction scores.
- Utilized AI-assisted design tools during prototyping to accelerate iteration cycles, reducing design turnaround time by 20-25% across multiple internal applications.

UI/UX Designer | Target Corporation

JAN 2023 - AUG 2023

- Performed user research and usability testing, identifying critical pain points and driving iterative design improvements to enhance user satisfaction.
- Enhanced visual hierarchy and readability by applying principles of color theory, typography, and layout, ensuring alignment with Target's brand guidelines.
- Produced UX design documentation and interaction specifications to support accurate implementation across engineering and product teams of over 10 stakeholders.
- Crafted high-fidelity UI designs using Target's Design System (DSM) across web and mobile surfaces, ensuring visual and interaction consistency.
- Executed A/B testing and variant testing on more than 5 redesigned features, using results to guide design decisions.
- Collaborated with cross-functional teams to align design solutions with business objectives and user needs.

UI/UX Designer | Larsen and Toubro (L&T)

MAY 2020 - DEC 2021

- Designed dashboards and enterprise user experiences for infrastructure and smart service platforms, improving workflow efficiency for more than 200 internal users by 40%.
- Conducted user research and heuristic evaluations, identifying and resolving 30+ usability issues in legacy systems.
- Developed wireframes, prototypes, and reusable UI components, defining information architecture and interaction patterns that reduced design time by 20%.
- Collaborated with engineers and product managers to implement designs with 95% alignment to user requirements.
- Standardized UI patterns and design guidelines, establishing unified interface framework across 3 major enterprise platforms.

EDUCATION

MS Computer Science | The University of Texas at Arlington | Dec 2023

BE Computer Engineer | Gujarat Technological University | Aug 2020

CERTIFICATIONS

UI/UX Design Masterclass | Udemy

Digital Product Design: UX Research and UI Design | Udemy
